UC Berkeley and the University of Tokyo are the top public universities in the United States and Japan. Both universities are members of IARU and have formed a Strategic Partnership to promote collaborative academic research and student exchange. In this international symposium, the Chancellor/ President and other executive officers of the two universities and Partnership members will discuss the future of higher education and academic research and the prospects for post-COVID society from their perspectives. The discussion will include a review of the Partnership's achievements to date and a look ahead to future initiatives.

PROGRAM

Introduction

Takeshi Saito, Leader of the Strategic Partnership, Professor, Graduate of Mathematical Sciences, UTokyo
